## MTU Onsite Energy to showcase distributed energy solutions at key agriculture industry trade shows

*Exhibits to feature technologically advanced standby and prime power generation solutions designed for agricultural applications*

MANKATO, Minn., March 17, 2014 – MTU Onsite Energy, formerly Katolight by MTU Onsite Energy, announces its 2014 agriculture industry trade show schedule. With thousands of installations worldwide, MTU Onsite Energy has been a trusted name for agricultural operators since 1952. From backup to continuous power, MTU Onsite Energy provides dependable diesel- and gas-power generation solutions that keep agricultural operations running without interruption.

To highlight its solutions tailored specifically for the agriculture market, MTU Onsite Energy will exhibit at the following key industry trade shows:

- **Midwest Poultry Federation Convention**, March 18-20, 2014, Booth 101
- **World Pork Expo**, June 4-6, 2014, Booth 587
- **World Dairy Expo**, Sept. 30-Oct. 4, 2014, Booth EH 2815

MTU Onsite Energy, a Rolls-Royce Power Systems brand, offers a range of products designed and tested to meet the custom demands of various agricultural environments. Whether operating

an animal confinement, dairy farm or greenhouse, MTU Onsite Energy offers the most complete selection of diesel- and gas-powered generator sets in the industry.

MTU Onsite Energy's product portfolio covers diesel generator sets up to 3,250 kW and gas-powered cogeneration systems up to 2,530 kW. The following product offerings are especially applicable for agricultural applications:

- **Power Take-off (PTO) Series** – Debuting in 2014 with a new look, MTU Onsite Energy offers the most complete PTO selection in the industry with performance features that include a full load connector through 105kW, four pole slow speed, 1800 RPM, and 15 amp-340 volt and 50 amp-240 volt receptacle.
- **Series 1600 Generator Set** – This compact powerhouse is ideal for emergency standby and peak-shaving applications. Based on the MTU Series 1600 diesel engine, this generator set covers a range of 250 kW to 600 kW., and offers exceptional reliability and an industry-leading average load factor.

Tailored for the needs of the customer, MTU Onsite Energy power generation systems are renowned for their reliability, robust design, versatility and low life cycle costs – all essential to the 24/7 agriculture industry.
